Letter Responding to EPA 308 Request.pdf

The attached letter follows my email on March 19 and our telephone call on March 12, and reflects the company's supplemental response to EPA's CWA 308 request, together with the required certification. The responsive information was submitted to Ohio EPA earlier today with a duplicate set to go to U.S. EPA. To reiterate our commitment in the letter, we will stand by to address any questions either agency has about the responsive information. Thank you.
